

ADVANCED Project Management (PMBOK) Training

Delivering Projects that Create Value, Drive Results, and Achieve Strategic Objectives

Duration: 10 Days

Certificate of
Completion

*Advanced Project Management Using
PMBOK® Principles*

International
Best Practices

Practical
Project-Based Learning

COURSE OVERVIEW

In today's dynamic project environment, successful project delivery requires more than schedules and budgets. Project leaders must apply internationally recognized principles, leadership skills, governance frameworks, and performance-based approaches to deliver value and achieve strategic objectives.

This intensive training programme is designed to equip participants with practical and advanced project management skills based on the latest PMBOK® principles and performance domains developed by the pml.org

Participants will gain the knowledge and tools needed to successfully initiate, plan, execute, monitor, control, and close projects while maximizing stakeholder value.
